The release date of T-Series and ASA Motion Pictures 'Creature 3D', which was reportedly to release on August 22, has now been pushed to September 12 as the special VFX and 3D technology used for the science-fiction thriller

required extra time.

This is the third date change for the film, with the first being June 27. 'Creature 3D' will now clash with Homi Adajania's Finding Fanny and Anushka Sharma's production venture, 'NH10'.

Directed by Vikram Bhatt, it reportedly is full of never-seen-before special effects, which were done at the popular Prasad EFX in Chennai. Starring Bipasha Basu, 'Creature 3D' is the debut venture of Pakistani model, Imran Abbas Naqvi.
