While India is all set for its first ever 3D *Creature* film, director Vikram Bhatt has different plans when it comes to defining his creature. The film maker has not relied on International help for the effects, in fact the visual effects have been created by a Chennai-based Prasad EFX who have previously also worked on *Haunted*, *Raaz 3* and *1920*.

According to a popular daily, interestingly, Vikram denied the presence of any Hollywood's phenomenon of Vampires and Werewolves and has dug into Indian mythology for his 'creature'. Thus, named Brahmarakshas – a mutant from Indian mythology. As scarier as it can be, 'Creature' will be 10 feet tall.

Bipasha Basu and 'Creature' Movie Poster

We hear, its co-star Bipasha Basu may be a little too scared and is yet to meet the Brahmarakshas. Well, we know the actress was brave enough to sign the film and soon will work with Brahmarakshas too!
